

Tasting notes

This award-winning Reserve Ice Cider, naturally forged by Canada's glacial winter climate, displays rich and complex notes of candied apple, apricot, marmalade, nut and sweet spices. The intense concentration of flavors and natural apple sweetness and acidity combine in a spectacular balance and tasteful result. The round and unctuous texture of the cider lifts and supports its complex aromas into a lengthy and vibrant final.

Service and pairing

On its own, before or after a meal, or paired with a cheese plate, foie gras, terrines and pâtés, fruity desserts or dark chocolate.

This cider is a remarkable and exquisite alternative to traditional sweet wines, such as ice wine, Sauternes or moscato.

Serve between 5 and 7 °C
